MAIN OBJECTIVES

T4F aims to develop a **Professional Training** based on the development of **Green Skills** in the **food sector**, in order to increase the number of jobs linked with an **ecological, sustainable** and **inclusive transition**.

TRAINING FOR
SUSTAINABLE
FOOD SYSTEMS
DEVELOPMENT

T4F training program offers specialized training contents that can be applied as integrated modules for vocational training.

T4F would like to meet the lack of competences and training needs in the field of sustainability for workers of the agri- food sectors.

T4F promotes the green social entrepreneur as a new professional figure between **economy, ecology and society** through a multilevel approach to sustainable development.

It would be an opportunity for improving competences, cooperation and competitiveness in **alternative food systems**.

TARGET GROUP

- Professionals and students of the food sector
- Unemployed
- Future green social entrepreneur
- Food Manager
- Who intend to develop an expertise in implementing and promoting food value chains.

More sustainable, More competitive, More durable
